## MFC Diamas Monogram Guidebook

The inspiration source for MFC Diamas Monogram is a vintage publication called "Bibliothèque D·M·C: Alphabets et Monogrammes 2nd Series" and is representative of the diamond shape monograms that dominated at the time. MFC Diamas Monogram is now digitally recreated and revived for modern use as two letter monograms with a selection of additional frame styles for a final classy touch!

Diamas Monogram Styles

MFC Diamas Monogram is only capable of two letter monograms due to its unique design. For those with Opentype Ligatures enabled, Diamas Monogram will automatically type the monogram correctly no matter what combination of Capitals and Lowercase you type.

To create a Diamas diamond monogram, select MFC Diamas Monogram from your font menu, and just type a Capital, then a lowercase letter.

MFC Diamas Monogram also has unique frame capabilities, for positive and negative monogram design styles. Using the same formula for typing out monograms above, see the formulas below on how to create these custom frame accented monograms.

Type any number 1 through 7 before a two letter monogram for a variety of open frames - or - type any number 8, 9, 0 to create a black filled frame, then change your font color and type out your two letter monogram for a negative (inverse) effect.

Two letter framed positive monogram

Type any number 1 through 7 and then any Capital/Lowercase combo using MFC Diamas Monogram

Two letter framed negative monogram

Type any number 8, 9, or 0 then change your font color and type any Capital/Lowercase combo using MFC Diamas Monogram

Below is a character map of the various frames available in MFC Diamas Monogram.

1   2   3   4   5   6
