

MFC Voyeur Monogram Guidebook

The source of inspiration for Voyeur Monogram is the 1934 "Book of American Types" by American Type Founders. Found in that specimen book was a wonderfully elegant monogram alphabet known as "Broadway Monogram Initials". This wonderful typeface is now digitally recreated, revived, and updated for modern use.

Voyeur Monogram is capable of several traditional monogram forms with unique detailing features utilizing Ligature & Stylistic Alternates features.

You can also use custom a custom designed Ampersand and Hyphen in Voyeur Monogram which requires the Stylistic Alternates feature, available in most OpenType savvy applications, such as Adobe Illustrator CS (see Fig. 1).
