

## MFC Falconer Monogram Guidebook

The inspiration source for Falconer Monogram is an unusual hand-drawn design from a vintage embroidery publication which relies on rigid geometric letterforms to create an upward stepping framework. This monogram which evokes visions of it embossed or printed on antique cookie tins was originally intended to adorn handkerchiefs, but the possibilities of its use are up to your imagination. This is one of many monogram designs from the early 1900's which fall into a two letter format that is either adorned or interwoven decorative elements.

### Falconer Monogram Standard Styles

Falconer Monogram is only capable of two letter monograms due to its unique design. For those with Opentype Ligatures enabled, Falconer Monogram will automatically type the monogram correctly no matter what combination of Capitals and Lowercase you type.

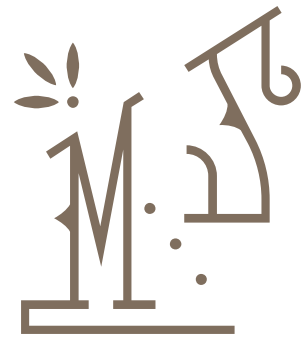

To create a vintage inspired monogram, select MFC Falconer Monogram from your font menu, and just type a Capital, then a lowercase letter.
